

# **BLUEBERRIES MEDICAL CORP.**

## **CONSOLIDATED FINANCIAL STATEMENTS**

FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(EXPRESSED IN CANADIAN DOLLARS)

### Management's Comments on Consolidated Financial Statements

The accompanying audited consolidated financial statements of Blueberries Medical Corp. (the "Company" or "Blueberries") were prepared by management in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"). Management is responsible for the presentation of the consolidated financial statements and believes that they fairly represent the Company's financial position and the results of its operations in accordance with IFRS. Management has included amounts in the Company's consolidated financial statements based on estimates, judgments, and policies that it believes are reasonable in the circumstances.

The consolidated financial statements were prepared by the management of the Company, reviewed by the Audit Committee of the Board of Directors, and approved by the Board of Directors.

To discharge its responsibilities for financial reporting and for the safeguarding of assets, management believes that it has established appropriate systems of internal accounting control which provide reasonable assurance, at appropriate cost, that the assets are maintained and accounted for in accordance with its policies and that transactions are recorded accurately on the Company's books and records.

April 26, 2024

*"Facundo Garreton"* Chairman & CEO *"Guillermo Rodriquez"* Chief Financial Officer

To the Shareholders of Blueberries Medical Corp.:

#### Opinion

We have audited the consolidated financial statements of Blueberries Medical Corp. and its subsidiaries (the "Company"), which comprise the consolidated statements of financial position as at December 31, 2023 and December 31, 2022, and the consolidated statements of loss and comprehensive loss changes in equity and cash flows for the years throughout then ended, and notes to the consolidated financial statements, including a summary of material accounting policies information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2023 and December 31, 2022, and its consolidated financial performance and its consolidated cash flows for the periods then ended in accordance with International Financial Reporting Standards.

#### **Basis for Opinion**

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which indicates that the Company incurred a net loss and accumulated deficit during the year ended December 31, 2023, and December 31, 2022. As stated in Note 1, these events, or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

#### Impairment of Property Plant & Equipment

#### Key Audit Matter Description

Assessment of impairment indicators on property, plant and equipment ("PP&E") and assets held for sale.

The Company's total PP&E, including asset held for sale, as at December 31, 2023 amounted to \$996,827. At each reporting period management assesses whether there are indicators of impairment. If indicators of impairment exist, the recoverable amount of the assets or cash-generating unit ("CGU") is estimated, and an impairment loss is recognized for the amount by which the carrying value of the assets or CGU exceeds the recoverable amount.

Management applies significant judgment in assessing whether indicators of impairment exist and in estimation of the recoverable amount. Internal and external factors, such as (i) a significant change in the market capitalization of the Company's share price; (ii) changes in conditions of PP&E, (iii) changes in forecasted earnings of the CGUs and (iv) changes in interest rates, are evaluated by management in determining whether there are any indicators of impairment.

We determined that this is a key audit matter due to (i) the significance of the PP&E balance; (ii) the complexity in evaluating significant management judgment in determining the recoverable amount of the PP&E; and (iii) the significant audit effort and subjectivity in applying audit procedures to evaluate management's assessment as to whether there are indicators of impairment and the complexity in auditing the impairment test.

#### Audit Response

We responded to this matter by performing procedures over the impairment of PP&E. Our audit work in relation to this included, but not restricted to, the following:

• We obtained an understanding of the impairment methodology and inputs used by management and evaluated management's key assumptions;

• With the assistance of an external valuation expert in Colombia we determined the appropriateness of the methodology used by management's expert in measuring the fair value of the PP&E, including the validation of the underlying data, comparison of recent transactions with properties of similar size, location and service infrastructure;

• We assessed the reasonableness of internal and external factors such as significant changes in the conditions of the PP&E, which may indicate a change in value of the PP&E; and;

• We assessed the adequacy of the Company's disclosures included in Notes 5 and 7 of the consolidated financial statements in relation to this matter

#### Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence
  that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion,
  forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based
  on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that
  may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a
  material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures
  in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our
  conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future
  events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ahlan Veerasamy.

The accompanying notes are an integral part of these consolidated financial statements.

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Blueberries Medical Corp. (the "Company", "Blueberries" or "BBM"), is a licensed producer of psychoactive and non-psychoactive cannabis by-products in Colombia.

Blueberries, which formerly operated under the name CDN MSolar Corp. ("CMS"), was incorporated in Canada on March 15, 2013 under the Business Corporations Act (British Columbia). On September 30, 2013, the Company completed an amalgamation with MN Ventures Ltd. ("MN"), a reporting issuer and continued under the name CDN MSolar Corp.

On February 5, 2019, Blueberries completed a transaction (the "Transaction") with Blueberries Cannabis Corp. (the "Private Company" or "BCC"), a private company registered under the Ontario Business Corporations Act. Simultaneously with the Transaction, CMS legally changed its name to Blueberries Medical Corp. Blueberries carries out its operations through the Private Company's wholly owned subsidiary, Blueberries S.A.S ("BBSAS").

The Company's corporate office and its principal place of business are 8500 West Georgia Street, Suite 2200, Vancouver, BC, V6C 3E8. On February 6, 2019, the common shares of the Company were listed on the Canadian Securities Exchange (the "CSE") under the symbol "CNSX: BBM". The common shares are also listed on the Frankfurt Stock Exchange ("FSE") under the symbol "10A" and on the OTCQB Market in the United States under the ticker symbol "BBRRF".

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to discharge its obligations and realize its assets in the normal course of operations for the foreseeable future. Since incorporation, the Company has incurred a net loss with no significant revenue-generating operations, which were primarily financed from proceeds received through issuance of share capital. For the year ended December 31, 2023, the Company has incurred a net loss of \$1,635,374 (2022 - \$1,467,876) and has a working capital of \$1,449,675 (2022 - \$438,230).

Until the Company's assets start generating significant cash flow, it will continue to exhaust its remaining financial resources to fund existing operations. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern as it will be contingent upon the Company's ability to successfully identify and procure necessary capital, which may be by way of strategic transactions to obtain financing and/or generate profitable operations that are beneficial to the Company and its shareholders.

Management believes that the going concern assumption is appropriate for these consolidated financial statements and that the Company will be able to meet its budgeted administrative costs during the upcoming year and beyond when considering the Company's current financial forecast. However, there is no certainty as to the timing and likelihood of realizing a strategic transaction that would provide additional financial resources beyond those currently retained by the Company. Should the going concern assumption not be appropriate and the Company is not able to realize its assets and settle its liabilities, these consolidated financial statements would require adjustments to the amounts and classifications of assets and liabilities.

#### 2. BASIS OF PRESENTATION

#### STATEMENT OF COMPLIANCE

The annual consolidated financial statements of the Company have been prepared in accordance with IFRS, as issued by the International Accounting Standards Board ("IASB") and IFRS Interpretations Committee ("IFRIC") interpretations applicable to companies reporting under IFRS and include the operating results of Blueberries and its subsidiaries.

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, revenues, and expenses. See Note 3 for critical accounting estimates and judgments.

These consolidated financial statements as at and for the years ended December 31, 2023 and 2022 were approved by the Company's Board of Directors on April 26, 2024.

#### a) Basis of measurement

These consolidated financial statements have been prepared on a going concern basis, under the historical cost convention. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting.

#### b) Basis of consolidation

These consolidated financial statements as at December 31, 2023 include the accounts of the Company and its subsidiaries. Subsidiaries are included in the consolidated financial results of the Company from the effective date of acquisition of control up to the effective date of disposition or loss of control. All intercompany transactions, balances, income, and expenses are eliminated upon consolidation.

The following table summarizes the Company's subsidiaries, their country of incorporation, and the Company's ownership interest.

Subsidiaries	Country of incorporation	Ownership Interest	
Blueberries Research Corporation ("BRC")	Canada	100%	Holding
Blueberries SAS ("BBSAS")	Colombia	100%	Active
Centro De Desarrollo e Investigacion ("CDIBBSAS")	Colombia	100%	Inactive
BBV Labs Inc. ("BBV Labs.")	Panama	100%	Inactive
SATIN S.A.S. ("SATIN")	Argentina	75%	Inactive

All intercompany balances and transactions are eliminated upon consolidation in preparing the consolidated financial statements.

#### c) Functional and presentation currency

Amounts included in these consolidated financial statements are expressed in Canadian dollars ("\$") unless otherwise noted. \$ is used as presentation currency in view of the Company's Canadian based public market listing and head office location.

The Company's subsidiaries measure the items in their financial statements in their functional currencies (the currency of the primary economic environment they operate in). The functional currency of the Company is the Canadian dollar. The functional currency of the operating subsidiaries in Colombia is the Colombian Peso. The functional currency of Panama and Argentina subsidiaries is U.S. dollar.

Transactions in currencies other than the functional currency are translated into the functional currency using the exchange rates prevailing at the date of such transaction. At each reporting period, monetary assets and liabilities denominated in foreign currencies are translated to the functional currency using the exchange rate at the reporting date. Foreign exchange gains and losses are recognized in the statement of loss and comprehensive loss.

At the financial reporting date, the subsidiaries' assets and liabilities are translated at the reporting period exchange rate, while revenues, expenses and cash flows are translated at the average exchange rate for the period. Shareholders' equity is translated at the rate effective at the time of the transaction. The resulting translation adjustments are recognized in other comprehensive income (loss) ("OCI") and in accumulated OCI in shareholders' equity.

#### MATERIAL ACCOUNTING POLICIES

#### a) Cash

Cash comprised of cash on account held in reputable banks and financial institutions.

#### b) Revenue recognition

To determine whether to recognize revenue, the Company follows a 5-step process:

- 1. Identifying the contract with a customer
- 2. Identifying the performance obligations
- 3. Determining the transaction price
- 4. Allocating the transaction price to the performance obligations
- 5. Recognizing revenue when/as performance obligation(s) are satisfied.

Revenue is recognized when control of a good or services transferred to a customer. For the Company, control typically transfers at a point in time, when delivery is made of products or the service is completed. Accordingly, revenue is then recognized only when the performance obligation is fulfilled. The Company will recognize the revenue upon satisfaction of following condition:

· All parties to the contract have approved the contract and are committed to perform their respective obligations;

- · Each party's rights in relation to the goods or services to be transferred can be identified;
- · The payments can be identified;

• The contract has commercial substance (i.e., the entity expects the risks, timing or amount of the entity's future cash flows to change as a result of the contract); and

 $\cdot$  It is possible (i.e., more likely than not) that the entity will collect the consideration it is entitled to in exchange for the goods or services.

Product revenue represents revenue recognized upon transfer of control of products or services to customers at an amount that reflects the consideration the Company expects to receive in exchange for the products or services transferred, net of discounts and sales taxes. The Company derives revenue primarily from the sale of products and CBD oil extraction services.

#### c) Assets Held for Sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale or disposition rather than through continuing use. Such assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs of disposal ("FVLCD") and are presented separately within the consolidated statements of financial position.

The criteria for held for sale classification is regarded as met only when the sale or disposition is highly probable, and the asset is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. The Company must be committed to the plan to sell the asset and the sale is expected to be completed within one year from the date of the classification. When the assets or disposal group are sold, the gains or losses on the sale are recognized in other (loss) income within the consolidated statements of loss and comprehensive loss.

#### d) Property, plant & equipment ("PPE")

Property and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

An item of equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying value of the asset) is included in the consolidated statement of loss and comprehensive loss in the period the asset is derecognized.

The assets' residual values, useful lives, and methods of depreciation are reviewed at each financial period end and adjusted if appropriate. PPE is depreciated through profit and loss over their estimated useful lives. Assets under construction are not subject to depreciation until they are available for use.

PPE is depreciated over their estimated useful lives using the following methods and rates:

	Method	Estimated useful life
Land		Indefinite
Agricultural facilities	Straight-line	3 - 5 years
Buildings and construction	Straight-line	10 years
Equipment and vehicles	Straight-line	3 - 5 years
Furniture and fixtures	Straight-line	3 - 5 years

#### e) Impairment of non-financial assets

The Company reviews and evaluates impairment of its non-financial assets whenever events or changes in circumstances occur that indicate that the carrying amount of the asset will not be recovered from its use or sale. For impairment testing purposes, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating unit or "CGU"). The Company has one CGU being its operations of Cannabis cultivation and extraction facilities in Colombia. An impairment loss is recognized for the amount by which the carrying amount of the assets exceeds the higher of its fair value and value in use. Fair value is the amount that can be obtained from the sale of an asset in an open market. The value in use corresponds to the present value of the estimated future cash flows expected to be obtained from the continuing use of the asset and from its sale at the end of its useful life. Impairment losses recognized in previous years are reversed if there is a change in the estimates used on the last time an impairment loss was recognized.

#### f) Convertible debentures

Convertible debentures are financial instruments which are accounted for separately dependent on the nature of their components: a financial liability and an equity instrument. The identification of such components embedded within a convertible debenture requires significant judgment given that it is based on the interpretation of the substance of the contractual arrangement. Where the conversion option has a fixed conversion rate, the financial liability, which represents the obligation to pay coupon interest on the convertible debentures in the future, is initially measured at its fair value and subsequently measured at amortized cost. The residual amount is accounted for as an equity instrument at issuance. Where the conversion option has a variable conversion rate, the conversion option is recognized as a derivative liability measured at fair value through profit and loss. The residual amount is recognized as a financial liability and subsequently measured at amortized cost. The determination of the fair value is also an area of significant judgment given that it is subject to various inputs, assumptions and estimates including contractual future cash flows, discount rates, credit spreads and volatility.

#### g) Financial instruments

At initial recognition, the Company classifies its financial instruments in the following categories depending on the purpose for which the instruments were acquired, and measures as follows:

#### Financial assets

- Cash classified as fair value through profit and loss ("FVTPL") and measured at fair value.
- Accounts receivables classified at amortized costs and measured at amortized cost.

The initial classification of a financial asset depends upon the Company's business model for managing its financial assets and the contractual terms of the cash flows. On initial recognition, the Company may irrevocably designate a financial asset that meets the amortized cost or fair value through other comprehensive income ("FVOCI") criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

#### Financial liabilities

- Trade accounts payable and accrued liabilities classified at amortized cost and measured at amortized cost.
- Debt host of convertible debt classified at amortized cost and measured at amortized cost.
- Derivative liability classified as FVTPL and measured at fair value.

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities. Financial liabilities at FVTPL are stated at fair value, with changes being recognized through the consolidated statements of loss and comprehensive loss. Other financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis. A financial liability is classified as measured at FVTPL if it is held-for-trading, a derivative, or designated as FVTPL on initial recognition.

All financial instruments are initially recognized at fair value. For financial assets and liabilities not classified as FVTPL, transaction costs directly attributable to the acquisition or issuance of the financial assets or financial liabilities are recognized with the asset or liability. Transaction costs of financial assets and liabilities carried at FVTPL are expensed in profit or loss.

#### Embedded derivatives

A derivative embedded in a hybrid contract with a financial liability, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss; any directly attributable transaction costs are recognized in profit or loss as incurred. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Subsequent to initial recognition, derivatives are measured at fair value and changes therein are recognized in profit or loss.

#### Impairment of financial assets

The Company recognizes loss allowances for Expected Credit Losses ("ECLs") on its financial assets measured at amortized cost. Due to the nature of its financial assets, the Company measures loss allowances at an amount equal to expected lifetime ECLs. Lifetime ECLs are the anticipated ECLs that result from all possible default events over the expected life of a financial asset. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the related financial asset.

#### h) Segment reporting

According to IFRS 8, operating segments are identified based on the 'management approach'. This approach stipulates external segment reporting based on the Company's internal organizational and management structure and on internal financial reporting to the chief operating decision maker. The management of the Company is responsible for measuring and steering the business success of the segments and is considered the chief operating decision maker within the meaning of IFRS 8. The Company operates in one segment being the operations of Cannabis cultivation and extraction facilities in Colombia.

#### i) Income taxes

Income tax expense consists of current and deferred tax expense. Current and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income (loss).

#### Current tax

Current tax is recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the income tax rates enacted or substantively enacted at the end of the reporting period and includes any adjustment to taxes payable in respect of previous years.

#### Deferred tax

Deferred tax is recognized on any temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable earnings. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized, and the liability is settled. The effect of a change in the enacted or substantively enacted tax rates is recognized in net loss and comprehensive loss or in equity depending on the item to which the adjustment relates. Deferred tax assets are recognized to the extent future recovery is probable. At each reporting period end, deferred tax assets are reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the assets to be recovered.

#### Estimates

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made.

#### j) Share capital and warrants

Common shares and warrants are classified as equity instruments. The share capital represents the amount received upon issuance of shares. Incremental costs directly attributable to the issuance of shares or warrants are recognized as a deduction from the proceeds in equity in the period in which the transaction occurs.

#### k) Share-based compensation

Share-based compensation expense is determined based on the estimated fair value of shares on the date of grant using the Black-Scholes option pricing model. Forfeitures are estimated at the grant date and are subsequently adjusted to reflect actual forfeitures. The expense is recognized over the vesting period, with a corresponding increase to contributed surplus. At the time the stock options are exercised, the issuance of common shares is recorded as an increase to share capital and a corresponding decrease to contributed surplus.

#### I) Provisions

Provisions are recognized when (i) the Company has a present legal or constructive obligation as a result of past events; (ii) it is probable that an outflow of resources will be required to settle the obligation; and (iii) a reliable estimate of the amount of the obligation can be made. The Company bases its accruals on developments, estimates of the outcomes of the matters and legal counsel experience in contesting, litigating, and settling matters. As the scope of the liabilities becomes better defined or more information is available, the Company may be required to change its estimates of future costs, which could have a material effect on its results of operations and financial condition or liquidity. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligations.

#### m) Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. The Company's related party transactions are conducted on commercial terms and conditions in the normal course of business.

#### n) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- i. the contract involves the use of an identified asset;
- ii. the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- iii. the Company has the right to direct the use of the asset.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-ofuse asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of the costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

A lease modification is accounted for as a separate lease from the original lease if the modification increases the scope of the lease by adding the right to use one or more underlying assets; and the consideration for the lease increase by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract. If the lease modification merely extends the Company's right to use an existing leased asset to which it already has access, the modification is not accounted for as a separate lease. Instead, the Company recalculates the existing lease obligations on the effective date of the lease modification to include the lease payments until the end of the extended period and a corresponding adjustment is also made to the right of use asset. The additional right of use asset and lease obligations relating to the extended period are therefore recognized on the date of modification.

#### e) Critical accounting estimates and judgments

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities and income and expenses. Accordingly, actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Significant estimates and judgments made by management in the preparation of these consolidated financial statements are outlined below.

#### Useful lives of PPE and intangible assets

Depreciation and amortization of property, equipment and intangible assets are dependent upon estimates of useful lives, which are determined through the exercise of professional judgment. The assessment of any impairment of these assets is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions and the useful lives of the assets.

#### Impairment testing

At the date of each statement of financial position, the Company reviews the carrying amounts of its finite-life intangible assets and property, plant and equipment, carried at cost to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent, if any, of the impairment loss. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount, being its value in use or fair value less cost to sell of the cash-generating unit to which the asset belongs. Judgement is also applied in determining the Company's CGUs. As part of the impairment testing, estimations would be involved in establishing the recoverable amount, including but not limited to, cash flow forecasts and discount rates.

#### Expected credit losses

In calculating the expected credit loss on financial instruments, management is required to make a number of judgments including the probability of possible outcomes with regards to credit loss, the discount rate to use for time value of money and whether the financial instrument's credit risk has increased significantly since initial recognition.

#### Convertible debentures

The accounting for convertible debentures involves discounted cash flow technique which includes both inputs that are not based on observable market data and inputs that are available from observable market data. Where available, the Company seeks comparable interest rates and, if unavailable, uses those considered appropriate based on management's assessment of the Company's risk profile.

#### Derivative liability on convertible debentures

The valuation of the derivative liability involves using the Monte-Carlo simulation model and inputting the current share price of the underlying stock, the interest rate for the option, a risk-free interest rate for the option, the expected conversion option price, and the expected life of the option. The derivative liability is valued at FVPL at each reporting date.

#### Stock options

All equity-settled, share-based awards issued by the Company are recorded at fair value using the Black-Scholes option-pricing model. In assessing the fair value of equity-based compensation, estimates have to be made regarding the expected volatility in share price, estimated life, and estimated forfeitures at the initial grant date.

#### Tax provisions

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made.

#### Valuation of deferred income tax assets

The Company assesses the probability of taxable profits being available in the future based on its budget forecasts. These forecasts are adjusted to take account of certain non-taxable income and expenses and specific rules on the use of unused credits and tax losses. When a forecast shows a net profit, the Company considers that the use of deferred income taxes is probable and recognizes the benefit. When management believes that the benefits will not be realized, the deferred income tax asset is not recognized.

#### Lease liabilities and right-of-use assets

A lease liability and a corresponding right-of-use asset is recognized at the commencement date of a lease at the present value of the lease payments over the lease term. The Company uses the implicit rate within the lease, if readily available, or the incremental borrowing rate when the rate implicit is not known. The discount rate is based on judgements including economic environment, term, currency, and the underlying risk inherent to the asset. The carrying balance of the right-of-use asset, lease liability, and resulting interest expense and depreciation expense, may differ due to changes in the market conditions. The lease term is also subject to certain assumptions including, the Company's intent regarding extension and termination options of a lease.

#### o) Adoption of new accounting pronouncements

#### Amendments to IAS 1 – Presentation of Financial Statements

In January 2020, the IASB issued amendments to IAS 1 Presentation of Financial Statements, to clarify its requirements for the presentation of liabilities as current or non-current in the statement of financial position. This amendment applies retrospectively for annual reporting periods beginning on or after January 1, 2023. There were no changes to the Company's current period or comparative period upon adoption.

#### Amendments to IAS 12 – Income Taxes

In May 2021, the IASB issued an amendment to IAS 12 Income Taxes to clarify the accounting for deferred tax on transactions such as leases and decommissioning obligations. The scope of the recognition exemption in IAS 12 no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The amendments are effective for annual periods beginning on or after January 1, 2023. There was no material impact as a result of adopting this amendment.

#### p) Accounting standards issued but not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the current period and have not been early adopted as follows. The Company is reviewing the new standards but does not expect their future adoption to have a material impact on Blueberries in the current or future reporting periods.

#### Amendments to IAS 16 - Leases

The amendment clarifies how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in IFRS 15: Revenue to be accounted for as a sale. The amendment is effective for annual period beginning on or after January 1, 2024.

#### Amendments to IAS 1 – Covenants

The amendment that clarifies how an entity classifies debt and other financial liabilities as current or non-current in particular circumstances. The amendments are effective for annual periods beginning on or after January 1, 2024.

#### **3.** ACCOUNTS RECEIVABLES

	December 31, 20	23 C	December 31, 2022
Trade receivable	\$ 137,52	23 \$	33,534
Expected credit loss	(25,3	9)	(4,536)
Recoverable sales tax	187,6	'9	180,759
Other receivable	10,48	31	46,164
Total	\$ 310,3	64 \$	255,921

#### 4. INVENTORIES

Inventories are measured at the lower of cost and net realizable value ("NRV"). The cost of inventories is based on the weighted-average cost method. Net realizable value is determined as the estimated selling price in the ordinary course of business less estimated costs to complete and the estimated costs necessary to make the sale.

Inventory recognized as cost of goods sold during the year ended December 31, 2023 was \$158,533 (2022 - \$143,552). As of December 31, 2023, the Company had a total of \$260,708 (2022 - \$12,311) in inventories, which consisted of finished goods.

#### 5. ASSETS HELD FOR SALE

Assets held for sale consists of a property used as a cultivation facility, located in Guatavita, Colombia and equipment located in the property. In December 2022, based on sample testing of the soil combined with the limited area available to scale operation, the Company has determined to sell the property. Due to the market condition, the Company has encountered challenges in selling the property, but the Company continues to actively market the property and expects the disposal of the property to be completed within a year from the reporting date.

#### 6. ADVANCES TOWARDS PROPERTY, PLANT, AND EQUIPMENT

Advances towards property, plant and equipment consisted of \$1,994,250 (US\$1,500,000) that was paid in February 2019 to purchase 15 hectares of farmland in Cogua (Zipaquira), Colombia (the "farmland"). The seller of this land is a legal entity whose minority beneficial owner is also a minority shareholder of the Company.

Balance, December 31, 2021	\$ 428,280
Foreign exchange adjustment	(48,051)
Balance, December 31, 2022	380,229
Foreign exchange adjustment	547
Settlement agreement	(380,776)
Balance, December 31, 2023	\$ -

Due to the permitting and zoning of the farmland, the title on the land had not been legally transferred to the Company. In 2021, due to impairment indicators being present, the Company's management conducted an impairment test, which was required under IAS 36 and engaged a third-party consultant to provide a valuation of the farmland. Based on the result, the Company recognized an impairment of advances towards property, plant and equipment, reducing the advances balance to \$428,280.

On April 5, 2023, the Company, the seller and Terraflos entered into a termination and settlement agreement ("Termination agreement"). Pursuant to the Termination agreement, the Company terminated the agreement to purchase the farmland and agreed to receive \$380,776 (US\$281,140) as compensation to be settled as follows:

- \$243,792 (US\$180,000) in cash on closing (received);
- Transfer of 3,905,000 shares of the Company owned by the seller to Terraflos valued at \$136,984 (US\$101,140) (the "deemed value"), and in turn, Terraflos is to pay the deemed value in cash to the Company in December 2023.

In 2022, the Company returned equipment acquired in 2021 to a vendor and received a refund of \$101,939. The difference between the total refund received and the net carrying value of the equipment of \$16,994 at the time of return, has been recognized as a gain of disposal of property, plant and equipment in the consolidated statements of loss and comprehensive loss for the year ended December 31, 2022.

In 2023, the management concluded that an impairment test was required under IAS 36, to provide a valuation related to its equipment. The Company has assessed the recovery value of the equipment. Based on these assessments, the Company recognized an impairment of property, plant and equipment of \$180,636.

#### 8. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

As at January 1, 2019, the Company recognized a lease liability and a corresponding right-of-use asset relating to a leased extraction facility in Tocancipa, a rural property in the municipality of Guatavita, Colombia.

In 2021, the Company amended the terms of its lease on its extraction facility in Tocancipa and recognized a gain of modification of lease of \$18,998. The Company impaired its right-of-use assets due to the market uncertainties in 2021.

In 2022, the Company terminated the lease in Tocancipa and entered into an extraction facility lease in Tenjo. In connection with the termination of the lease in Tocancipa, the Company paid a termination fee of \$24,733 ("termination fee"). The difference of \$225,294 between the reduction of lease liability on termination date of \$250,027 and the termination fee was recognized as a gain on termination of lease in the statements of loss and comprehensive loss for the year ended December 31, 2022 and entered into an extraction facility lease in Tenjo.

In order to operate in the new extraction facility in Tenjo, the Company is required to file an application of change of address under its current license, which has been filed in November 2022. The Company remains to operate in Tocancipa (Note 21) and will be moving to Tenjo once the approval to operate in Tenjo has been issued.

Due to the pending approval of application of change of address, the Company extended its occupancy in Tocancipa until the change of address is approved under the license granted by the Instituto Nacional de Vigilancia de Medicamentos y Alimentos ("INVIMA").

#### Right-of-use asset

Balance, December 31, 2021	\$ -
Addition	188,46

Foreign exchange adjustment	36,644
Less - current portion	(1,762)
Balance, December 31, 2023	\$ 11,042

#### **9.** INTANGIBLE ASSETS

By December 31, 2021, Blueberries S.A.S. was granted licenses to produce, manufacture, market and export cannabis derivatives and products using extracts in Colombia by the Ministry of Health. The licenses obtained for cannabis operations are as follows:

- a license to use seed for planting as well as their export and use for medical and scientific purposes
- a low THC cultivation license (non-psychoactive, less than 1% THC content)
- a production license authorizing the domestic and international distribution of high and low THC Medicinal Cannabis extracts
- a high THC cultivation license (psychoactive, more than 1% THC content)

The fair value attributed to the licenses are straight-line amortized over their estimated useful life of 5 years. Other finite life intangibles consist of assets such as software related licenses, which are amortized over their estimated useful lives of three years.

In 2021, the management assessed the intangible assets were impaired. Due to continued uncertainty of local and export markets in Colombia, management performed a cash flow analysis. While management continues to believe that the future market for Colombian cannabis products is strong, the timing and amount of future cash flows from potential revenue streams is not projected to be sufficient to meet the current cost structure of the Company.

#### **10.** CONVERTIBLE DEBT

On July 16, 2020, Blueberries closed a non-brokered private placement offering (the "Offering") of \$1,000,000 in principal amount of unsecured convertible debentures (the "Initial Debentures"). The Initial Debentures will mature 24 months from the date of closing (the "Maturity Date") and bear interest at a rate of 13% per annum, with an effective interest rate of 32.36%. The Initial Debentures will be convertible at the option of the investors, in whole or in part, into common shares of the Company (the "Shares") at a conversion price of the lower of: (i) \$0.065 per Share or; (ii) the volume-weighted average price of the Shares on the CSE for the 15 consecutive trading day period ending on the conversion date subject to a minimum conversion price of \$0.05 ("Conversion price"). As the conversion option does not meet the fixed for fixed criteria it has been recorded as a derivative liability.

On July 29, 2022, the Company entered into an amendment agreement in connection with the Initial Debentures (the "Amended Debentures") in which the maturity date of the Initial Debentures was extended from July 13, 2022 to July 13, 2023 (the "New Maturity Date"). All the remaining terms of the Amended Debentures, including the Conversion Price, remain the same as the Initial Debentures. As consideration for the extension, the Company agreed to pay a total of \$163,800 to the holders of the Debenture in cash, or at the option of the holders of the Debenture, in the common shares of the Company at a conversion price of \$0.05 per share, on the New Maturity Date. In addition, the Company incurred a total of \$3,761 in legal fees.

The amendment was accounted for as a debt extinguishment and recognition of a new liability. The total transaction fees related to the amendment was \$167,561, along with the recognition of the new convertible debenture liability of \$960,036 and derivative liability of \$218,319, offset by the derecognition of convertible debenture liability of \$1,260,000 at July 29, 2022 amendment date, which resulted in a loss of \$85,916 on debt modification being recorded on the consolidated statements of loss and comprehensive loss for the year ended December 31, 2022.

The fair value of the derivative liability was determined using a Monte-Carlo simulation with the following key assumptions:

	At inception	As at	Atamendment	As at
Measurement date	13-Jul-2020	31-Dec-2021	29-Jul-2022	31-Dec-2022
Principal	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000
Issuance/Amendment date	13-Jul-2020	13-Jul-2020	13-Jul-2020	13-Jul-2020
Maturity date	13-Jul-2022	13-Jul-2022	13-Jul-2023	13-Jul-2023
Remaining life (years)	2.00	0.53	0.96	0.53
Interest rate (per year)	13%	13%	13%	13%
Risk free rate (per year)	0.28%	0.39%	3.15%	4.47%
Stock price (\$/share)	\$0.05	\$0.07	\$0.04	\$0.02
Conversion price	Lesser of \$0.	.065 & 15-day WWAP,	minimum of \$0.05	

On July 16, 2020, the Company initially recognized \$717,605 as convertible debt liability, and \$270,395 as derivative liability of the conversion feature. Upon amendment to extend the maturity term of the convertible debt liability, on July 29, 2022, the Company recognized \$960,036 as convertible debt liability, and \$218,319 as derivative liability of the conversion feature.

The table below shows the continuity of the convertible debt liability and derivative liability.

#### Fair Value of Derivative Liability

Balance at December 31, 2021	\$ 366,400
Initial fair value of new derivative liability, at amendment	218,319
Change in fair value of derivative liability	(527,042)
Balance at December 31, 2022	57,677
Change in fair value of derivative liability	(57,677)
Balance, December 31, 2023	\$ -

#### Convertible Debt Liability

Balance, December 31, 2022		1,146,373
Accrued interest		69,333
Accretion		174,294
Repayment		(1,390,000)
Balance, December 31, 2023	\$	-

On July 13, 2023, the Amended Debentures, in the principal amount of \$1,000,000, were matured. The Amended Debentures were repaid in December 2023.

#### **11. SHARE CAPITAL**

As of December 31, 2023, the Company was authorized to issue unlimited common shares with no par value, with holders of common shares entitled to one vote per share and to dividends, if declared.

	Number of Shares	Amount
Balance, December 31, 2021	163,810,263	16,780,242
Shares issued from private placement <sup>(1)</sup>	54,498,889	1,471,470
Share issue costs <sup>(1)</sup>	-	(4,394)
Balance, December 31, 2022	218,309,152	18,247,318
Shares issued from private placement <sup>(2)</sup>	180,716,000	1,987,876
Share issue costs <sup>(2)</sup>	-	(6,873)
Balance, December 31, 2023	399,025,152 \$	20,228,321

- <sup>(1)</sup> On November 28, 2022, the Company completed a non-brokered private placement for an aggregate gross proceed of \$1,471,470 (US\$1,100,000) from the sale of 54,498,889 common shares at a price of \$0.027, which was entirely purchased by Terraflos, a company that is controlled by Facundo Garreton, the Company's Chairman, CEO and Director. In connection with the private placement, the Company incurred a total of \$4,394 of share issued costs.
- <sup>(2)</sup> On December 29, 2023, the Company completed a non-brokered private placement for an aggregate gross proceed of \$1,987,876 (US\$1,250,000) from the sale of 180,716,000 common shares at a price of \$0.011 ("2023 Private Placement"). In connection with the private placement, the Company incurred a total of \$6,873 of share issued costs.

Key management and Terraflos collectively participated in the 2023 Private Placement with the purchase of 152,679,682 for \$1,679,477.

#### **12. CONTRIBUTED SURPLUS**

In connection with the Transaction, the Company adopted the Stock and Incentive Plan (the "Plan") which was approved by the shareholders of CMS on December 6, 2018. The Board establishes vesting and other terms and conditions for options at the time that they are granted. The Plan provides that stock options may be granted up to a number equal to 10% of the Company's outstanding shares. The plan also indicates that the maximum number of shares which may be issued to any one insider and his or her associates under the plan, together with any other previously established or proposed share compensation arrangements, within a one-year period shall be 5% of the shares outstanding at the time of the grant. As of December 31, 2023, the Company had 27,002,515 options remaining reserved on common shares.

The following table reflects the continuity of stock options:

	Stock options	Weighted average exercise price (\$)
Balance, December 31, 2021	7,510,001	0.23
Options expired	(2,855,001)	0.32
Options issued <sup>(1)</sup>	1,500,000	0.05
Balance, December 31, 2022	6,155,000	4.47
Options expired	(455,000)	0.28
Options granted	7,200,000	0.02
Balance, December 31, 2023	12,900,000	0.14

<sup>(1)</sup> On July 1, 2022, Blueberries granted 1,500,000 options to certain director and officers of the Company to purchase Blueberries' common shares. The options are exercisable at price of \$0.05 per option for a 5-year term and vesting one-third each on every one-year anniversary from the grant date. The fair value of each option was \$0.0279, estimated using the Black-Scholes option pricing model.

<sup>(2)</sup> On November 1, 2023, Blueberries granted 7,200,000 options to certain director and officers of the Company to purchase Blueberries' common shares. The options are exercisable at price of \$0.02 per option for a 5-year term and vesting 40% immediately and 20% on each of the first, second and third anniversaries of the grant date. The fair value of each option was \$0.0143, estimated using the Black-Scholes option pricing model.

The stock options issued in 2023 and 2022 were allocated a fair value using the Black-Scholes option pricing model with the following assumptions:

	2023	2022
Risk-free interest rate	3.98%	3.06%
Estimated stock price	\$0.02	\$0.04
Forfeiture rate	0%	0%
Expected dividend yield	0%	0%
Expected stock price volatility	178.93%	115.36%
Expected option life	5 years	5 years

The following summarizes stock options issued, exercisable and outstanding as at December 31, 2023:

Exercise		Weighted average term to	Number of options
prices (\$)	Number of options outstanding	expiry (years)	exercisable
0.05	1,500,000	3.50	500,000
0.10	300,000	1.24	300,000
0.10	75,000	2.92	50,000
0.13	500,000	2.42	333,334
0.13	2,250,000	2.05	1,500,000
0.14	500,000	2.10	333,334
0.40	575,000	0.10	575,000
0.02	7,200,000	4.84	2,880,000
0.07	12,900,000	3.69	6,471,668

During the year ended December 31, 2023, the Company recognized a total share-based compensation expense of \$111,450 (2022 – \$133,395) in the consolidated statements of loss and comprehensive loss.

#### **13. GENERAL AND ADMINISTRATIVE EXPENSES**

For the years ended December 31,	2023	2022
Audit and accounting	\$ 273,653 \$	227,256

Change in non-cash working capital	\$ (327,683) \$	(82,756)

#### **17. RELATED PARTY TRANSACTIONS**

- a) The Company has defined key management personnel as senior executive officers, as well as the Board of Directors. The total remuneration of key management personnel and the Board of Directors for the year ended December 31, 2023, was \$463,913 (2022 - \$331,686), including \$94,496 (2022 - \$122,162) of sharebased compensation.
- b) On November 28, 2022, Terraflos acquired an aggregate of 54,498,889 common shares at a price of \$0.027 per common share for an aggregate gross proceed of \$1,471,470 (US\$1,100,000) (Note 11).
- c) Key management and Terraflos collectively participated in the 2023 Private Placement with the purchase of 152,679,682 for \$1,679,477 (Note 11)
- d) Included in other receivable (Note 3), a total of \$10,580 (2022 \$Nil) was due from a director of the Company.

See Note 6.

#### **18. FINANCIAL INSTRUMENTS**

As of December 31, 2023, the Company's financial instruments consist of cash, accounts receivable, accounts payable and accrued liabilities and lease liability. The fair values of these financial instruments approximate their carrying values due to the short-term maturity of these instruments.

The Company characterizes its fair value measurements of financial instruments into a three-level hierarchy depending on the degree to which the inputs are observable, as follows:

- Level 1 inputs are quoted prices in active markets for identical assets and liabilities;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the assets or liabilities either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

A financial instrument is classified to the lowest level hierarchy for which a significant input has been used in measuring fair value.

The Company measures cash at fair value. Cash are classified as Level 1 input in the fair value hierarchy.

The Company has exposure to the following risks from its use of financial instruments:

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient cash resources in order to finance operations, fund capital expenditures, and to repay debt and other liabilities of the Company as they come due, without incurring unacceptable losses or risking harm to the Company's reputation.

As at December 31, 2023, the Company's financial liabilities consist of trade accounts payable and accrued liabilities, lease liability, which have contractual payment obligations within one year, with the exception of lease liabilities. The Company manages its liquidity risk by reviewing its capital requirements on an ongoing basis.

#### Credit risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfil its contractual obligations. Financial instruments subject to credit risk include cash, and accounts receivable. All of the Company's cash are held at reputable financial institutions. Accounts receivables consist mainly of harmonized sales tax and general sales tax receivables that the Company expects to receive from the Government of Canada and Colombia respectively. As such credit risk is deemed to be low on these instruments. The Company also has trade receivables of \$137,523, of which \$25,319 has been provided for as potentially uncollectible.

#### Market risk

Market risk is the risk or uncertainty that changes in price, foreign exchange rates, and interest rates will affect the Company's net earnings and the value of financial instruments. Blueberries is exposed to two types of market risk, being foreign currency risk and interest rate risk as outlined below.

#### Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in foreign currency exchange rates. The Company's functional and reporting currency, except for the Colombia, Argentina and Panama subsidiaries, is the Canadian dollar. The Colombian subsidiaries incur expenditures in Colombian pesos, which is their functional currency. Therefore, the Company is exposed to the risk of fluctuations in foreign exchange rates between Colombian pesos and Canadian dollars. Blueberries does not anticipate a significant impact on its consolidated financial statements as a result of a 5% change in the exchange rate between the two currencies.

#### Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in prevailing market interest rates. The Company's convertible debt has fixed interest rate. As at December 31, 2023, the fluctuations of interest rates would not have had a significant impact on the consolidated financial statements.

#### Capital risk management

The Company's objectives when managing capital are to ensure the Company will have sufficient financial capacity, liquidity, and flexibility to fund the Company's operations, growth, and ongoing developmental activities. The Company is dependent upon funding these activities through a combination of available cash, debt, and equity, which it considers to be the components of its capital structure as outlined below. There were no changes to the Company's capital management during the year, except the issuance of convertible debt. The Company is not exposed to any external capital requirements.

	D	ecember 31, 2023	December 31, 2022
Derivative liability	\$	- \$	57,677
Convertible debt		-	1,146,373
Shareholders' equity	\$	1,945,941 \$	1,467,768

### **19. INCOME TAX**

#### Reconciliation of effective tax rate

For 2023, the Company's statutory tax rate is 27% (2022 - 27%), composed of a 15% rate of Canadian Federal corporate tax and the 12% rate of British Colombia provincial tax. The reconciliation of the combined Canadian income tax to the effective tax rate is as follows:

	2023	2022
Net Loss before recovery of income taxes	\$ (1,635,374) \$	(1,467,876)
Expected income tax recovery	(441,551)	(396,326)
Difference in foreign tax rates	(29,972)	(72,737)
Share based compensation and non-deductible expenses	64,289	94,445
Changes in fair value of derivative liabilities	15,573	(142,301)
Change in tax rates	-	-
Book to filing adjustments	157,921	(76,383)
Change in tax benefits not recognized	233,740	485,336
Others	-	107,966
Income tax (recovery) expense	\$ - \$	-

#### **Recognized deferred tax assets**

Deferred taxes are provided as a result of temporary differences that arise due to the differences between the income tax values and the carrying amount of assets and liabilities. The following table summarizes the components of deferred tax:

	2023		
Deferred tax assets			
Lease liability	\$ -	\$	59,128
Non-capital losses carried forward	-		19,988
Deferred tax liabilities			
			(50.400)
Right-of-use asset	-		(59,128)
Others	-		(19,988)
Net deferred tax Asset	\$ -	\$	-

#### Unrecognized deferred tax assets

The following table summarizes deductible temporary differences for which no deferred tax asset has been recognized:

	2023	2022
Tax losses - Colombia	\$ 7,249,887	\$ 6,847,950
Non-capital losses carried forward - Canada	6,481,217	5,029,708
Share issuance costs - 20(1)(e) - Canada	174,426	560,167
Property, plant and equipment - Colombia	-	294,855
Advances towards property, plant and equipment	-	1,390,278
Intangible assets	279,556	-
Investment in joint venture	566,217	566,218
Reserve and others	6,205	9,306
Lease liability	12,803	21,128
Unrealized foreign exchange rate losses	-	147,956
Total	\$ 14,770,311	\$ 13,308,221

Share issue and financing costs will be fully amortized in 2027. The Company has available non-capital losses which may be carried forward to reduce taxable income in future years.

The Company's Canadian unrecognized non-capital income tax losses expire as follows:

2039	\$ 2,060,938
2040	1,151,588
2041	850,113
2042	986,485
2043	1,432,093
	\$ 6,481,217

The Company's Colombian unrecognized non-capital income tax losses expire as follows:

2030	\$ 448,580
2031	1,981,247
2032	1,254,401
2033	2,338,615
2034	685,252
2035	541,792
	\$ 7,249,887

Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the group can utilize the benefits therefrom.

#### **20.** COMMITMENTS

A summary of the Company's commitments as of December 31, 2023, are as follows:

		2026 and				
Lease	Lease Term	2024	2025		after	Total
Cultivation area (Guatavita - El Amarillal)	November 4, 2025	\$ 1,995 \$	1,898	\$	- \$	3,893
Total		\$ 1,995 \$	1,898	\$	- \$	3,893

#### **21. GEOGRAPHICAL SEGMENT INFORMATION**

The Company is engaged in the growth, cultivation, and development of medicinal cannabis and related products with operations in Colombia. Management has defined the operating segments of the Company based on geographical areas, identifying operations held in Colombia as a separate geographic segment. The Canada segment reflects balances and expenses related to all Company operations in Canada, which collectively represent the corporate operations of the Company.

The following tables show information regarding the Company's segments for the years ended December 31, 2023 and 2022:

For the year ended December 31, 2023	C	olombia	Canada		Total	
Revenues						
Products revenue	\$	245,837	\$	-	\$	245,837
